

HawalaCom.net

A private, invitation-only trust network modernizing centuries-old Hawala relationships — without crypto.

What it is

HawalaCom is a members-only digital club built for high-trust communities. It modernizes relationship-based trust with secure identity, introductions, private directories, verified referrals, and controlled communications — designed for discretion and high-integrity participation.

Why now

Global families and business networks want private, high-trust coordination without exposure to speculative tokens or public platforms. HawalaCom focuses on privacy, cultural alignment, and real-world relationships.

Near-term deliverables (12 months)

- Invitation workflow + member verification
- Member portal: profiles, directory, trusted introductions
- Private groups and events module
- Secure messaging (optional phase) and audit logs
- Admin console: approvals, moderation, reporting

Business model (example)

Conservative pro forma assumes a blended average of \$1,500 annual dues per member plus a \$500 initiation fee. Growth is controlled and invitation-only.

Funding request (seed)

Seeking approximately **\$500,000** to build and launch the initial platform, secure operations, and support first-year member onboarding.
